Transparencies for Presentations, Correlations and Metaphysics

1. Bell experiment
2. Probabilistic Causality
3. Causal Explanations of the Bell Correlations
4. The Robustness Condition
5. Classical physics examples
6. Robustness Correlations with Partial Causes
7. Robustness and Markov chains
8. If then correlations and Robustness
9. The Catalena Interpretation of QM
10. Robustness and Separability.
